THEY SAY.

There is treachery in camp.

The colored democratic Congressional committee has issued a circular letter and sent it to the colored employes of the several departments.

If they are in sympathy with the present administration they must come up to the captains office.

This is right, if you love me enough to take my money, you should love me enough to support me.

There are hundreds of unwashed democrats in town who will be glad to succeed colored republicans.

Recorder Taylor has made three charity appointments.

Taylor is more sympathetic than people think.

He believes in helping the poor and needy.

He is opposed to codfish aristocracy.

Let us have peace and harmony in our household.

Gov. Pinchback is on the warpath.

You see it and now you don't see it.

The prediction of the prophet is coming true.

Is there any hope for honest men?

Don't be alarmed at a cloudburst.

They are dangerous sometimes.

So are some men.

Never desert a friend in distress.

When you make promises always keep them.

McCabe of Kansas will be in town.

Mc. has his eye on the deputy recordership.

Taylor has his eye on Mc. also.

The recorder watches his political friends as closely as he watched the Africans when he went to Liberia.

Astwood will not go to San Do Mingo.

The recorder is the boss now and don't you forget it.

All small fish must fall in line.

King was acquitted.

Judge Miller asserted that it was a manufactured case

King will go off the force just the same.

The mass-meeting that was held knows just as much about the schools as an African fegee.

There will be rest for the weary some day.

President Cleveland is bold and determined.

He is no coward.

Strikes must come to an end.

He means business and don't you forget it.

The governor of Illinois is not in it.

He will find out before long that the people mean business.

Pulies is no fool.

He would make an excellent officer

When a man is placed in power his friends are numerous.

When he is going down the hill he finds hundreds pushing him.

When you laugh the world laughs with you, but when you weep you weep alone.

Miss Wells should be defended by the negro press.

She is a woman of news.

No matter what her faults may be she is honest.

Who will be the next president of the association?

Let there be a full meeting.

Ex-recorder Bruce looks just as well and happy as usual.

He knows his friends and his friends know him.

Make him president and he is the same Bruce.

Why not make him Commissioner of Agriculture?

Bruce in the Cabinet would not be a mean thing.

Sporting Notes

Two amateur teams are great rivals for the championship of the District. One is of Southeast Washington and the other is from Southwest Washington.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL
AND PHOSPHATES OF
LIME, SODA, IRON.
The truly wonderful effect produced by Dr. Alexander B. Wilbor's Compound of Pure Cod-Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day. Consumption, coughs, colds, asthma, debility, wasting diseases and all scrofulous humors disappear under its influence. It is almost as palatable as cream. It can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and appetite, builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, in fact, rejuvenates the whole system, flesh, blood, nerve, brain. This preparation is far superior to all other preparations of cod-liver oil; it has many imitators, but no equals. The results following its use are its best recommendations. Be sure, as you value your health, and get the genuine. Manufactured only by DR. ALEXANDER B. WILBOR, Chemist, Boston, Mass.

EDITOR FLEMING ON A PITCH-FORK.

Lynch law in the South will not be stopped with outside violent influence. The people in that section of the country will settle that awful problem among themselves.—Chicago,(Ill.) *Free Speech.* Yes, it will be stopped when all the victims of Southern hatred shall have been run out like the editor of the *Free Speech* or those less fleet of foot than Editor Fleming have been caught and killed. Fleming ought to have staid in Memphis and assisted in settling that problem.-Pine Bluff Echo.

If we are not mistaken the editor of the Pine Bluff Echo is the same gentleman that took to his heels and escaped from the city of Montgomery, Alabama, when the Southern negro haters got after him. If "Fleming ought to have staid in Memphis and assist in settling that problem," then why did not Mr. Duke of the Echo stay in Montgomery and render a like assistance? It does seem to us that what is sauce for the goose is suitable lubricating fluid for the gander.

H. C. C. ASTWOOD.

This man at one time represented the United States at San Do Mingo and was subsequently removed on charges. He managed to impress President Cleveland through the influence of Recorder of Deeds Taylor that he was the proper man to go to Calias, France. President Cleveland and Mr. Taylor did not know Astwood, and as Hon Fred Douglass remarked he is a priest in disguise.

This man Astwood failed to be recognized by the republican party because he was too well known and the Senate refused to confirm him because he was better known by the Senate than he was by Mr. Cleveland and Recorder Taylor. Astwood has been all the time the secret enemy of the present Recorder of Deeds, and while the confirmation of Taylor was pending, this man Astwood said that he did not think and hoped that Taylor would not be confirmed.

The BEE wants Astwood to know that this is a notice served on him and in the next issue of the BEE he will be informed why the Birmingham convention was called, the secret of the Matthews indorsement and many more of his notorious acts.

Astwood must understand that he cannot bring his San Do Mingo and Haytian ideas in this country; he will be given to understand that no Judias Iscariot will be permitted to play a double role.

Astwood is a demogogue and his place is in San Do Mingo and to that place he must go.

KING ACQUITTED.

Charles King, the officer who was charged with an assault on Mrs. A. M. Black was tried in the Police Court, before Judge Miller, on last Tuesday morning. The witnesses for the prosecution testified that King purposely struck Mrs. Black and knocked her down.

Dr. Francis said that Mrs Black was suffering more from nervous prostration.

King admitted that he entered the residence of Mrs. Black without a warrant, notwithstanding, what the government witnesses said Judge Miller thought it was a manufactured case and although Mrs. Black was knocked down by King, her house entered without authority and Mrs. Black having been under a doctor for a month, the conclusion of the court was that the case was manufactured.

The BEE wants to say to the court that the friends of Mrs. Black are still of the opinion that King purposely assaulted Mrs. Black, and while Judge Miller thought otherwise a higher court must decide it.

DEMOCRATIC DELEGATES.

The convention of District democrats was held in this city last Tuesday evening. The meeting was largely attended and without opposition. C. L. Barnes, Koonce and Smith Wormley were elected delegates to the Indianapolis convention.

THE BEE.

The new business manager of the BEE, Mr. C. L. Barnes is a young man of experience and journalistic ability. The BEE in the future as in the past will be independent, but strictly a race paper. It is men and not party, principles and men the representatives of sound principles.

The BEE is 13 years old and is strictly on the increase and growing in popular favor.

EDITORIAL CHIPS.

We have a few exposures to make pretty soon. The BEE can not afford to keep still while men are organizing leagues, bogus steam boat companies and other rascally schemes for no other purpose than to rob our people. Our "investigating editor" is out looking up the facts upon which the exposure will be made and our readers need not be surprised if something "drops."

If the American Railway Union strikers succeed in their fight against the Pullman company it will be bad for the colored sleeping car porters, from the fact that the strikers have declared against colored employes. These foreign aristocrats are determined that the colored brother shall not make an honest living. Driven out of work in the North and lynched in the South the colored man's future seems mighty dark.

How soon some men forget their friends, but every dog has his day. Now you see him and now you don't. Reader do you catch on? The man who willfully deceives a friend cannot have permanent prosperity.

The BEE is still on top and don't you forget it.

The fellow with the straw hat and the linen duster who takes in every excursion that comes along is the same fellow who had no overcoat and coal last winter and will have no bread and house rent next winter. The fools are not all dead yet.

Miss Ida B. Wells is stiring England up on the lawless outrages perpetrated on the Negro in the Southern States. Governor Stone of Missouri writes a London newspaper that Miss Wells is not telling the truth. We don't know whether the governor ever attended Sunday school or not, but we do know that in denying the statements that are being made by Miss Wells, he puts himself on record as a defender of crime, a poltroon, an unmitigated liar and a governorial dumphool. The lynching, burning and skinning alive of Negroes in the South has got to be a mere pastime, indulged in by the "best white citizens" of that hellish section. If governor Stone or any of his friends need the dates, places and circumstances of some of these diabolical crimes they can get them by sending to this office for a copy of Mr. R. C. O. Benjamin's book on Southern Outrages."

In this book not only do hold statistical tables show the number and frequency of Southern outrages and their alleged provocations, but has been gathered in the book newspaper accounts, that Gov. Stone himself have read, of the more fiendish acts of violence which have befaulted the later history of the New South. Let Miss Wells continue to show up the so called civilized South.

R. C. O. Benjamin, esq left this city this week for Providence R. I. where he goes to arrange a law partnership with Judge J. H. Ballou. This new law firm will be known as Ballou and Benjamin. Mr Benjamin will reside permanently in Providence but will continue as associate editor of the BEE. On or about the first of September the editor of the BEE will join the firm and Ballou, Chase, and Benjamin will conduct a law business on a large scale in the cities of Providence and Washington.

COLORED DEMOCRATS COMPLAINING OF INFERIOR APPOINTMENTS.

RECORDER TAYLOR INDORSED.

The Negro Democratic Congressional Club met with the District League in convention last Tues. eve., and elected the following delegates to the Indianapolis convention: C. L. Barnes, M. S. Koonce, and G. S. Wormley.

The following resolutions were unanimously adopted:

"Resolved, That we indorse the administration of the greatest President this country has ever seen, Grover Cleveland. If the Democratic party would follow his lead without question or hesitation, they would remain in power for the next quarter of a century.

"Resolved, That every citizen of the United States must be educated and the government must see to it that no foreigner is admitted to citizenship who is unable to read and write, at least his own language. The riotous and law breaking foreigner must not receive as good treatment as the loyal and patriotic citizens of this country. Especially must this be remembered when dealing with the black voters. Every school house erected calls for one less jail, one less poorhouse, one less military company. All the ills afflicting our country must really be charged to ignorance.

Resolved, That it is the work of the Democratic party to really free the people, not only from burdensome taxation, but from that sort of absurd and foolish caste prejudice which holds a man back on account of his color.

Resolved, That we instruct our delegates to the Indianapolis league convention to vote first, last and all the time for the re-election of our brave and intelligent leader of negro Democracy, Hon. C. H. J. Taylor.

Resolved, That this, the District Negro Democratic League, subordinate to the Negro National League, indorse C. L. Barnes for District chairman, and M. S. Koonce for District secretary, and we call upon the new national league president to appoint them.

Resolved, That the attention of the heads of the various Departments be called to the dissatisfaction now existing among the Negro Democrats, owing to the fact that the appointments which have been made are inferior to the capabilities of the appointees. The dissatisfaction has been caused from the fact that the heads of the various Departments show a studied determination not to recognize the negro Democrat above a laborer. So flagrant has this treatment of the negro Democrats become, that the Republicans are using it for campaign purposes.

Resolved That C. H. J. Taylor, leader of the colored Democracy, call the attention of the heads of the Departments and Congressianal Committee to these facts, so that some immediate remedy may be applied.

Resolved, that in consideration of the very liberal treatment accorded colored passengers by the Baltimore and Ohio Railroad, it is recommended that favorable consideration of colored delegates attending the National Negro Democratic League Convention at Indianapolis the second Tuesday in August.

Resolved, that this club indorse the action of President Cleveland and the Secretary of War in ordering troops to the districts at present affected by riotous disturbances. It is not only the right but the duty of any man to quit work when he feels that he is not receiving a proper collateral for such service, but we dispute the right of any person to prevent by force the acceptance of such labor by any one else who might feel disposed to take it.

J. T. C. Newsom, chairman; Charles J. Lane, H. Cla Hawkins, John T. Cheshire, W. A. Barnett, G. S. Wormley, J. H. Frye, committee.

C. L. BARNES, President.
M. S. KOONCE, Secretary.

OUR NEW MANAGER.

The WASHINGTON BEE which is to be enlarged and improved as soon as the new steam boiler and press are put in, has found it necessary to place at the head of the business department as manager Mr. C. L. Barnes, one of the brightest and most active young men in this country.

Mr. Barnes will be the business manager commencing with this issue of the BEE.

The BEE will be the leading journal in the country and as it has always held first place in journalism it shall continue to maintain its position.

A REPORT THAT MARTIAL LAW MAY BE DECLARED.

The Situation at Chicago at Present is Calm Though There is No Telling What the Outcome May Be—The Latest Reports—The Quiet Before the Calm.

Chicago, July 11.—The great strike of the allied trades of Chicago was inaugurated this morning. All the trades are affected more or less seriously. It is believed the full force of the strike will not be felt until the end of this week. The cigarmakers meet at 4 o'clock this afternoon to decide what action to take. The German bakers have quit. A thousand sheet-iron workers are out. Seven thousand plumbers and five thousand carpenters meet to-night to decide what course to pursue. A hundred capemakers are out. A thousand tinners, 600 cabinet-makers, 2,000 horseshoers, 500 molders, 200 glassworkers, 3,000 structural iron workers, 1,500 teamsters, 1,100 carriage-makers and 200 of Kellogg's printers are out so far.

The full list of the men indicted by the United States Grand Jury includes Eugene V. Debs, George W. Seward, Sylvester Keliher, L. W. Rogers, James Murwin, Lloyd Hotchkiss, A. Paizybak, H. Elfin, James Hammond, William Smith, John Westerbrook, Edward O'Neil, Charles Nailer, John Duffy, William McMullin, E. Shelby, Fred Ketchum and John W. Doyle.

They are indicted for conspiracy, which is punishable by a fine of from $1,000 to $10,000 or imprisonment for not more than two years, and also for hindering the execution of the laws of the United States, punishable by a fine of from $300 to $5,000 or imprisonment for not more than six years.

Hardly had the word been flashed across the half mile of intervening ground between the Government building and labor headquarters that indictments had been returned and warrants for Debs and his associates placed in the hands of the officers, when the committee appointed by the trades and labor associations of the city to urge upon the Pullman Company the desirability of submitting the dispute with its employees to arbitration, attached its signatures to the order calling out every union man in the city from midnight. Almost before the ink was dry on this document, General Master Workman Sovereign, of the K. of L., placed the official seal of the order upon a manifesto appealing to the order and through it to the whole people to lay down the implements of toil.

Mayor Hopkins said this morning that he will probably issue a proclamation between this and to-morrow morning closing every saloon in the city. It all depends on how many men go out here to-day. Mayor Pingree, of Detroit, with telegrams from the Mayors of different cities in the United States asking for arbitration in the Pullman troubles, called on Mayor Hopkins to-day. Petitions will be presented to Vice-President Wickes, of the Pullman Company, some time to-day.

The general managers report that trains are running on nearly all lines. Much perishable freight has been moved. There are some disturbances in other cities which prevent through trains and the acceptance of perishable freight for long distances.

Trains are moving in the Stock Yards this morning. No trouble is experienced from the mobs. Only two or three little incendiary fires were reported in that district last night.

One thousand newsboys decided last night to join the boycott.

Washington, July 11.—Several members of the Executive Board of the Knights of Labor are in the city on business connected with labor legislation. From statements they made Sovereign's appeal contemplates a progressive rather than a universal strike.

Sacramento, July 11.—The whole atmosphere was changed this morning on the arrival of the regulars. The strikers have all gone home, and their threats have not been carried out. Trains will move to-day.

New York, July 11.—The Knights here are ready to obey the strike order, though not anxious for trouble. Local assemblies will first hold meetings according to the constitution. The firemen's branch and the Seamen's Union say they will quit in a body if necessary. This will tie up tugs and ferries and outgoing steamers. The Brooklyn surface carmen called a meeting this morning to discuss the strike.

Cleveland, July 11.—The situation is unchanged. The expected break has not come. The Knights of Labor have not yet struck, but will obey the order to strike, 2,500 strong.

Pittsburg, July 11.—All is quiet here. It is believed the railroad men will continue at work.

Toledo, O., July 11.—The Pennsylvania, Cincinnati, Hamilton, Dayton, Hocking Valley, Wheeling, Lake Erie, Ohio Central, Michigan Central, Lake Shore, Ann Arbor and Cloverleaf Railroads are tied up. No disturbances are reported. The Wheeling and Lake Erie Railroad discharged every employee to-day.

Detroit, July 11.—The backbone of the strike is generally broken. Men are returning to work. Passenger trains are on time here.

Scottdale, Pa., July 11.—This morning a body of negro coke workers fired into marching strikers at Summit. Eight men were shot. It is thought this will give rise to a general movement against imported blacks in the coke region.

Noted Swindler Caught.

New York, July 10.—Sir Henry Cook, one of the best known swindlers in the country, was arrested for forgery to-day. He used the name of President Bond, of Milwaukee, and rode on orders to pass him over the Louisville and Nashville Railroad.

The Britannia Wins Again.

Glasgow, July 10.—The Britannia and Vigilant started from Hunter's Quay this morning in a race over the Clyde course for the Clyde Corinthian Yacht Club's cup, valued at £60. The Britannia won.

Won the High Dive.

London, July 9.—Golden, an American, won the championship high dive at Boynton's. There were eight contestants. Andree, of Chicago, was last.

THEY ATE HUMAN FLESH.

Horrible Story of Cannibalism Practiced by Castaway Sailors.

Washington, July 11.—The full report of Capt. Healy, of the revenue cutter Bear, giving details of the wreck of the whaler James Allen in the Behring Sea and the rescue of twenty-four out of a crew of forty-nine, discloses a shocking tale of cannibalism on the part of the boat's crew, who were rescued on Unmak Island. Capt. Healy says: "The men were found in a terrible condition. One man, Gideon, had died a week before. Mussels were scarce and the birds wild, so that the men said they had given up all hope of ever being rescued, and were completely demoralized. The body of the man Gideon had been eaten entirely. They had even dug up the body of one of those who had died two weeks previously and had partially consumed it. The trunk lay just outside the hut, with arms and legs cut off, and portions of the meat were in the pot outside the door. No attempt had been made to hunt or to attract attention from seaward. Not even a mark had been set up on the bluff behind them. They had not ambition enough to go down to the beach to gather driftwood to keep their fire going, but had begun to tear down the hut over their heads. When found they lay around the fire in the hut doing nothing, looking at each other, with the blood of their late shipmates on their hands and faces, and human bones strewn about them on the floor."

THE TARIFF.

But as Little Has Been Done in Conference.

Washington, July 11.—The conference committee on the tariff bill has accomplished but little yet, none of the important schedules having been considered. There is some trouble in the committee. Enough is known to show that the Senate conferees are holding out for the Senate bill and that no receding from the amendments passed by the Senate will be considered for a moment. It is considered that the managers of the bill in the Senate appreciate the fact that the danger point has not been passed and that any effort to give way in conference the amendments made in the Senate would cause the loss of votes that were held in line by the amendments that were put on the bill. A careful canvass of the situation in the House shows that there is a disposition there to accede to the Senate amendments for the reason that the belief has been impressed upon the leaders that such a line must be followed, or the fate of the bill in its entirety will be imperilled.

TO KILL CASIMIR-PERIER.

An Anarchist Arrested on Suspicion of Plotting Against Him.

Madrid, July 11.—An Anarchist who is suspected of plotting against the life of Casimir-Perier, President of the French Republic, was arrested at Junquera, in the province of Gerona, and taken to Barcelona, where he was locked up.

One Hundred Were Drowned.

Odessa, July 11.—The survivors of the steamer Vladimir, which was sunk by collision with the Italian steamer Columbia near Eupatoria Sunday night, have arrived here. They report that a hundred of the Vladimir's passengers were drowned. The Columbia was compelled to come to this port to land the rescued people, and her captain was arrested and held pending an inquiry into the cause of the collision.

More Trouble in Bluefields.

Washington, July 11.—More trouble has occurred at Bluefields, Nicaragua. From advices received by Secretary Herbert it appears that the natives of the Mosquito country have caught their Nicaraguan Governors napping, and have asserted their right to rule the land of their nativity. Secretary Herbert's dispatch is from Commander O'Neil, of the United States ship Marblehead.

American Patriotism Costs Sometimes.

London, July 11.—George F. Sanford and Stewart Sherrill, of the Yale athletic team, were arraigned before a magistrate at Oxford, charged with setting off fireworks in the streets on the Fourth of July. The young men admitted the charge, but said they were not aware that they were violating the law until warned by the police, when they stopped their fun. They were released upon paying costs.

Woods Burned on Martha's Vineyard.

Cottage City, Mass., July 11.—Fire has wrought havoc with woodland on Martha's Vineyard. Hundreds of acres of oak timber on the upland between Edgartown and Vineyard Haven were ruined, and the loss is heavy. The fire was started by Portuguese berry pickers burning brush in order to produce subsequent growth of huckleberries.

Attempted Wreck on the West Shore.

Fort Plain, N. Y., July 11.—Another attempt to wreck a West Shore train was made here. The Pacific express, west bound, due here at 3:40 o'clock, was sidetracked, the switch lock having been broken and the switch turned. As the train stops here, it was not running at full speed, and passed on the siding without injury.

Arrived With the Crew in Irons.

Victoria, B. C., July 11.—The steamer City of Topeka arrived from Alaska and reported that the sealer Grgrande reached Sitka on July 4 with a crew of Indians in irons. They had mutinied and threatened the lives of the officers. They were landed at Sitka and placed in jail.

China Won't Evacuate Corea.

Berlin, July 11.—It is learned here that the Chinese Government has no intention of evacuating Corea, even if Japan withdraws her troops. The retention of a Chinese garrison in Corea is assumed to be an assertion of Chinese suzerainty over the country.

Work in the Navy Yard.

Washington, July 11.—The joint resolution providing for the resumption of work in the construction department of the various navy yards has been approved by the President.

She said her father was a hod-carrier and her mother a washer-woman; that she could write short hand and was an expert type writer. I have no influence said she, but I want a place so I can help my father and mother.

Mr. Taylor was very much amused and pleased at the manner the young lady addressed him and said, "yes Miss I will give you a place and it affords me pleasure to do so."

DASTARDLY WORK.

Negroes Attempt to Raid a Town and a Number Shot.

Scottdale, Pa., July 10.—Three negroes employed at the Paynter works of the McClure Coke Company came to Scottdale yesterday afternoon. As soon as their presence became known strikers attacked and drove them over into Fayette County. Shots were exchanged, but no one was injured. The negroes went back to the coke works, where plans were made to raid the town. The 150 negroes at the Paynter works armed themselves with revolvers, razors and clubs, and at 8 o'clock marched to town. Burgess John Robertson appeared on the scene and commanded the mob to disperse. A negro fired three shots at him and another struck him with a stone. This was a signal for a battle, and a crowd of at least 500 citizens rushed at the negroes. The negroes retreated, shooting back into the crowd, and at least 500 shots were fired. The citizens secured revolvers and guns and chased the negroes up through Pastime Park, keeping up a hot fire. The negroes escaped through the woods to the works. David Munday, a colored man from Pittsburg, was left behind probably fatally wounded, being shot in the head. It is reported that at least a dozen other negroes were woundel. Several of the leaders were arrested.

FROM THE DEAD.

A Supposed Corpse Comes to Life in the Coffin.

Sprakers, N. Y., July 10.—Eleanor Markham, aged twenty-two, apparently died Saturday at her home near Currytown. While the supposed corpse was being borne from the house to the hearse, a faint tapping attracted the attention of the pall-bearers, and upon the coffin lid being raised Miss Markham was found to be alive. She was removed to her home and is recovering. Miss Markham said that she had knowledge of all that passed while the preparations were making for her burial, but she was unable to give sign until the fear of burial aroused her to action.

ADRIFT AT SEA.

Two Men in a Dory Without Food or Water for Seven Days.

St. John's, N. F., July 10.—The schooner Diamond, Capt. Boudoit, eight days out from Boston, arrived here last evening, bringing two seamen, William Mason and Theodore Wilnough, of the Gloucester schooner Shenandoah. The men were picked up on Friday. They had been drifting in a dory off Grand Banks for seven days, without food or water, and tell a dreadful story of their sufferings. They chewed the leather of their boots, pieces of canvas and everything that might stimulate and nourish them.

Cannibals Still in Fiji.

Auckland, July 10.—A vessel which arrived here from the Fiji Islands yesterday says that the natives of Vanua-Levu recently attacked the native police, who were enforcing communal taxes, clubbed all and ate several of them. Sir John Thurston, Governor of the islands, led the troops against the insurgents and, after killing seven of them in a fight, forced them to submit.

Killed in a Freight Wreck.

Binghamton, July 10.—A freight train on the Erie road in charge of Conductor Munn, of Hornellsville, broke in two between Campville and Owego and came together again with a great crash, piling up a number of cars. Conductor Munn was thrown under the pile of wrecked cars and instantly killed. He is survived by a widow and three children.

Mint Settlement Delayed.

Washington, July 10.—Director Preston has directed the Superintendent of the Mint at San Francisco to resume operations and defer settlement of his accounts until later. It is customary to settle on June 30, but the two clerks sent from Washington for that purpose. Messrs. Butler and Braddock, have been tied up at Ogden, Utah, for ten days by the strike.

Against Sugar Trusts.

Boston, July 10.—The Supreme Court has under consideration an application made by the Attorney-General for an injunction to stop the business of the Sugar Trust for not complying with the Massachusetts law requiring it to file in March each year a certificate of its financial condition. The failure is admitted and justified under the interstate commerce law.

Racers Burned Up.

Boston, July 10.—Eighty horse stalls at the Mystic Park track in Medford were burned last night, and five horses perished in the flames. So rapidly did the flames lick up the structures that it was only by the liveliest sort of work that the larger part of the horses that were quartered there in readiness for the trotting meeting which opens to-day were saved.

Will it be the Erie?

Washington, July 10.—Mr. Baldwin (Dem., Minn.) has introduced in the House a bill appropriating $100,000 to enable the Secretary of War to make surveys and estimates of the most feasible route from the great lakes to the Atlantic Ocean. The proposed canal, if built, is to be owned, constructed and operated by the Government.

The Treasury Balance.

Washington, July 10.—The heavy receipts from internal revenue, caused by the increased tax on whiskey in the new tariff bill, are making themselves felt in the improved condition of the Treasury stated balance, which to-day stands at $121,503,000, less $7,000,000 paid on interest. Of this balance $64,241,000 is in gold.

A New Railroad.

Tribes Hill, N. Y., July 10.—A company has been organized in Johnstown to build a steam railroad from Amsterdam to Johnstown and Gloversville via Akin and Tribes Hill. A board of directors was appointed and money enough pledged to build the road. Work on the new line will soon be commenced.

HERE AND THERE.

The B. and O. R. R. is beautiful and picturesque. Reduced rates to all points.

The negroes are not in the Western strike but are being punished by the high prices on provisions, which they are not able to buy.

It is said that J. Frank Hanley, the republican candidate for Congress in the Ninth Indiana district was sawing and splitting wood for 75 cents a day fifteen years ago and attending school evenings, for the first time in his life. Little Abe Lincoln used to split wood, but when he died he bore the title with distinction, President Abraham Lincoln.

Mr. Owings of Moscow, Idaho, was considered one of the leading democrats of that place. He recently made application for the position of postmaster at Moscow, Idaho; but there being such a delay Mr. Owings turned to be a populist. Before the news of his change could reach this city, his nomination as postmaster was sent to the Senate. The democrats of Moscow are in wrath protesting against his confirmation. If Mr. Owings had of known of this nice little plumb he would not have joined the populists.

Miss Augustine Goines, one of our prospective teachers for the next school term, will leave the city in a few days to rusticate among the green hills and valleys of the state that was the native place of the author of "Home Sweet Home."

"KISS HER AND TELL HER SO."

Integrity of character, a right sense of honor, manliness and respect for what is pure and good all are adjuncts to the perfect happiness of married life, writes Mary J. Holmes in answer to the question "What Constitutes A Good Husband?" in the July Ladies' Home Journal. But most natures crave more than these, and what they crave is so easy to give that I wonder it is ever withheld. Said a woman of her husband who, when living stood high with his fellow men and surrounded her with every luxury: "I loved him most for his kind thoughtfulness and delicate attentions which made me feel that I was as dear to him after years of marriage as on the first day he called me his wife." And this, I think, is the secret of some women's happiness.

It is not enough for a man to make a woman his wife, and after a few weeks or months ignore her with a feeling that because he has chosen her to bear his name she must be forever satisfied, with no furthur demonstration of love. Women like demonstrations, and there is a world of good advice in the two lines of an old ballad I lately read: "If your wife is dearer to you than life, Kiss her and tell her so"

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a **Set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes**, with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents thrilling and skillfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type. The twelve volumes [illegible] each one of which is published [illegible]

Get the Genuine Article.—The great popularity of "Wilbor's Compound of Cod-Liver Oil and Lime" has induced some unprincipled persons to attempt to palm off a simple article of their own manufacture; but any person who is suffering from Coughs, Colds, or Consumption, should be careful where they purchase this article. The results of its use are its best recommendations; and the proprietor has ample evidence on file of its great success in pulmonary complaints. The Phosphates possess a most marvelous healing power, as combined with the pure Cod-Liver Oil by Dr. Wilbor. It is regularly prescribed by the medical faculty. Sold by A. B. Wilbor, Chemist, Boston, and all druggists.
